FIRMWARE VERSION/CHIP NO.: N/A

SOFTWARE VERSION NO.: N/A

GENERAL DESCRIPTION OF EQUIPMENT: A trailer mounted, hydraulically raised mast and arm with two height adjustments, suitable for mounting a video camera. The arm can be cantilevered over highway at both 90 degrees (horizontal) – 13 feet of reach with 17 feet of clearance - and 120 degrees (30 degrees above horizontal) – 11 feet of reach with 24 feet of clearance. The unit is also capable of mounting traffic signals so it can be used as a temporary replacement for a traffic signal pole and arm.

SENSOR TECHNOLOGY AND CONFIGURATION: Best suited to video cameras

SENSOR INSTALLATION: At end of arm with Pelco camera mount

INSTALLATION TIME: Mast and arm erects in minutes

INSTALLATION REQUIREMENTS:

MAXIMUM NUMBER OF LANES MONITORED SIMULTANEOUSLY
