

ANTH 350. Anthropological Theory Historic and contemporary thought.	3 cr.	ANTH 451. Practical Forensic Anthropology Advanced laboratory exercises in identification of human skeletal remains. May be repeated for a maximum of 3 credits. Prerequisite: ANTH 430 or ANTH 530.	1 cr. (3P)
ANTH 355. Physical Anthropology An introduction to primate behavior, human evolution, and physical variation in modern human populations.	3 cr.	ANTH 452. Practical Fauna Analysis Advanced laboratory exercises in the identification of animal bone recovered from paleontological and archaeological contexts. Prerequisite: consent of instructor. May be repeated for a maximum of 3 credits.	1 cr.
ANTH 357G. Medical Anthropology Evolutionary, epidemiological, and cross-cultural perspectives on disease, curing, and health care systems.	3 cr.	ANTH 458. Anthropology of Reproduction Human life cycle is studied from biological, evolutionary, cross-species, and cross-cultural perspectives. Coverage of pregnancy, birth, infancy, childhood, puberty, adulthood, menopause, aging, senescence, and death. Prerequisite: ANTH 201G or consent of instructor.	3 cr.
ANTH 360. Food and Culture Around the World Study of the interaction between food and human culture from an anthropological perspective. Examines the traditional role of food in local economies, social relations, and identity around the world. Also examines the impact of globalization on traditional food systems and cultures.	3 cr.	ANTH 459. Peru: From Incas to Inca Cola Explores issues of cultural and national identity in Peru from the Incas to the present, focusing on the modern period. Themes include indigenous resistance and adaptation to colonial rule, nationalism, militarism, terrorism, globalization, and the drug trade. Same as GOVT 565 and HIST 559.	3 cr.
ANTH 361G. Social Issues in the Rural Americas Discussion of major social issues in the rural United States and Latin America. Topics include social history, cultural groups, land tenure, irrigation, government policy, markets, and agricultural labor. Same as SOC 361G.	3 cr.	ANTH 467. Archaeology of the American Southwest Description and analysis of prehistoric archaeology of the American Southwest including paleo-environmental reconstruction, culture change, and relations with contemporary cultures. Prerequisite: ANTH 315.	3 cr.
ANTH 378. Introduction to Lab Methods in Archaeology Laboratory techniques used in the analysis of archaeological materials.	3 cr.	ANTH 472. Primate Behavior Survey of the social behavior and ecology of nonhuman primates.	3 cr.
ANTH 387. Field work in Latin America Anthropological field methods in Latin America including in-field lab analysis. Prerequisite: consent of instructor. May not be taken S/U.	3-12 cr.	ANTH 473. Primate Adaptation and Evolution Survey of the adaptations and evolutionary history of nonhuman primates.	3 cr.
ANTH 388. Intermediate Field Session Training in archaeological field methods, including excavations of prehistoric sites, record keeping, mapping and analysis of data. Prerequisite: consent of instructor.	2-6 cr.	ANTH 474. Human Osteology A survey of the functional, developmental, and evolutionary biology of the human skeleton. Identifying bones and teeth from hands-on experience with skeletal and dental material. Provides a foundation for human evolutionary studies, bioarchaeology, and forensic anthropology. Prerequisite: ANTH 355 or equivalent.	3 cr.
ANTH 398. Intermediate Historical Field Archaeology Training in historical archaeological field methods, including excavation, record keeping, mapping, historic research, and analysis of data. Prerequisite: consent of instructor.	3-6 cr.	ANTH 475. Bioarchaeology and Forensic Anthropology An examination of human skeletal remains at the level of the population (bioarchaeology) and the individual (forensic anthropology). Introduction to methods used for determination of age, sex, and biological affinity and identification of pathological conditions. Principles of analysis in prehistoric demography and epidemiology will be discussed. Prerequisite: ANTH 474 or consent of instructor.	3 cr.
ANTH 401. Ethnography Seminar A literature review of ethnographic field research, data gathering, and analysis. A wide variety of anthropological publications will be critically examined and discussed. Designed for ANTH and SOC majors.	3 cr.	ANTH 477. Faunal Analysis Detailed study and analysis of taphonomic processes affecting animal bone recovered from archaeological and paleontological contexts. Prerequisite: either ANTH 315, ANTH 355, or BIOL 330.	3 cr.
ANTH 405. Native Cultures of North America Description and analysis of the Native peoples north of Mexico.	3 cr.	ANTH 485. Field Experience Anthropological or archaeological field work experience in private, state and federal agencies. Must spend 30 hours in a field setting per credit hour earned. Prerequisite: complete 12 ANTH credits and consent of instructor. May be repeated for a maximum of 6 credits.	1-3 cr.
ANTH 406. Introduction to Anthropological Practice Anthropological approaches to research design, implementation, and dissemination. Restricted to majors. No S/U option.	1 cr.	ANTH 488. Advanced Field Session Archaeological field methods, including excavations of prehistoric sites, record keeping, mapping, and analysis of data. Prerequisites: previous field experience and consent of instructor.	1-6 cr.
ANTH 414. The Archaeology of Religion Exploration of the methods and theories used by archaeologists to study prehistoric religion.	3 cr.	ANTH 497. Special Topics Specific subjects to be announced in the <i>Schedule of Classes</i> . Prerequisite: junior or above standing. May be repeated for a maximum of 12 credits.	1-5 cr.
ANTH 419. Topics in Prehistoric Archaeology Specific subjects in prehistoric archaeology as announced in the <i>Schedule of Classes</i> . Prerequisite: junior or senior standing. May be repeated for a maximum of 6 credits.	3 cr.	ANTH 499. Fundamentals of Anthropology Review of fundamental knowledge and theories in biological, cultural, or linguistic anthropology or archaeology. Graded S/U.	1-4 cr.
ANTH 430. Human Osteology and Forensic Anthropology Structure, morphology, and variation of the human skeleton and dentition. Treatment of aging, sexing, and race.	3 cr.		
ANTH 431. Nutritional Anthropology Evolutionary and cross-cultural perspective on human nutrition.	3 cr.		
ANTH 432. Anthropology of Religion Cross-cultural overview of spiritual beliefs and religious changes. Topics include shamanism, ethnomedicine, revitalization movements, and women's roles in spiritual life.	3 cr.		
ANTH 433. Women, Gender, and Culture Survey of the history of ideas about women and gender in the discipline of anthropology and a comparison of gender roles, relations, and ideologies across a range of cultures. Same as WS 433.	3 cr.		
ANTH 434. Human Evolution Overview of human biological and cultural evolution from primate origins to the emergence of complex society. Equal emphasis given to theory and descriptive history. Prerequisite: ANTH 355 or consent of instructor.	3 cr.		
ANTH 449. Directed Reading Comprehensive reading on selected topics. Prerequisite: upper division anthropology majors with consent of instructor. May be repeated for a maximum of 6 credits.	1-3 cr.		
ANTH 449H. Directed Reading—Honors Same as ANTH 449. Additional work to be arranged. May be repeated for a maximum of 6 credits.	1-3 cr.		

• **ARAB—Arabic**
Department of Languages and Linguistics

Students may not receive credit for a lower level course which is a prerequisite to a higher level course for which credit has been received or which is being taken for credit. Exceptions must have prior approval of the head of the department.

ARAB 111. Elementary Arabic I Arabic language for beginners.	4 cr.
ARAB 112. Elementary Arabic II Arabic language for beginners. Prerequisite: C or better in ARAB 111.	4 cr.
ARAB 211. Intermediate Arabic I Speaking, reading and writing. Prerequisite: C or better in ARAB 112.	3 cr.
ARAB 212. Intermediate Arabic II Speaking, reading and writing. Prerequisite: C or better in ARAB 211.	3 cr.
