Geography**

The Department of Geography emphasizes the interaction of human activities with the environment. Both geography and planning programs prepare students for professional positions in government or the private sector. The undergraduate geography program also prepares students for graduate study while the planning program emphasizes preparation for a professional career in urban planning.

The requirements for teaching fields in earth sciences are listed under the Department of Curriculum and Instruction in the College of Education chapter.

A student must earn a grade of C or better for any major or minor requirements offered by the Department of Geography.

DEGREE: Bachelor of Science**MAJOR: City and Regional Planning**

The courses taken by majors in city and regional planning are highly interdisciplinary in order to prepare the student for a profession that draws from such diverse fields as geography, economics, government, civil engineering, soils, sociology, agronomy, and real estate. A good mix of courses to develop basic planning skills and to introduce students to the varied approaches to the profession has been assembled in this curriculum.
