NMSU Faculty Senate
Vice Chair's Report
October, 2008
Chris Erickson

ADAC: ADAC meet twice. The topic of most interest was the potential of developing a new degree program in Computer Science that is less technical. Graduates from this program would receive a bachelor of arts, rather than a bachelor of science. Apparently, this is common at other universities.

FACULTY SENATE SALARY TASK FORCE: The Faculty Senate Faculty Salary Task Force has been formed and met twice in September. A major goal of the Task Force is to develop a consensus of how to move forward. Consequently, the committee is large, with about 20 members. You may have noticed that minutes are being posted to the faculty listserv.

ELECTIONS: Three elections are under way currently: Faculty Salary Increase/Performance Evaluation Review Board, University Appeals Board, and for a constitutional Amendment to allow representation on Faculty Senate.

Respectfully,

Chris Erickson
Faculty Senate Vice Chair
